The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the 1.

basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 6-19 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Dube et

al. (4,941,486).

Dube et al. discloses a cigarette comprising a wrapper material which has air permeability

of greater than 50 CORESTA units. Dube at al. also discloses that the wrapper is coated with a

cellulose derivative such as ethyl cellulose (col. 6, ine 32). Dube et al. also discloses that the

coating can be applied to both sides of the wrapper (col. 6, lines 21-28). Note that the method of

coating is of no consequense since the claims are directed to the article rather than the method of

making.
